

Wanted!

MEP Ambassadors for the Covenant of Mayors for a climate-neutral Europe

What does the Ambassador role involve?

Act as a figurehead and advocate in your Member State and in the EU institutions

Connect us with national and regional actors

Promote the Covenant of Mayors in national events

Mobilise mayors from your Member State and region to join the world's largest movement for local energy and climate action

Bring the voice of cities to European policy-making

Present the Covenant's ideas and achievements in the European Parliament

Speak as a Covenant Ambassador at European and international events

Appear as an official supporter on the Covenant of Mayors website and publications

What is the Covenant of Mayors for Climate and Energy?

The Covenant of Mayors for Climate & Energy is the world's largest movement for local climate and energy action. In Europe, we bring together over 10,000 cities and towns, who are joining forces to secure a better future for their citizens.

Embedded in the EU's climate and energy policy framework, the Covenant is a non-legislative initiative that aims to work alongside the European Green Deal policy package. Our vision is that, by 2050, all Europeans will be living in decarbonised and resilient cities with access to affordable, secure and sustainable energy. To achieve this, the participating municipalities pledge to:

- (1) reduce greenhouse gas emissions on their territory
- (2) increase resilience and prepare for the adverse impacts of climate change
- (3) tackle energy poverty as one key action to ensure a just transition.

The Covenant of Mayors - Europe in numbers

10,049 signatories

191 supporting organisations

5,979 action plans

27 countries

over 227 million inhabitants

19,892 actions
